5 Courses

Basic Engineering Mathematics

Probability and Statistics

Discrete Mathematics for Computer Science and Engineering

Linear Algebra for Machine Learning & AI

Logic for Computer Science

Jan 19, 2026

arsh prem

has successfully completed the online Specialization

Mathematics for Engineering

This 5-course specialisation equips learners with a robust mathematical foundation crucial for data science, machine learning, and AI. Covering fundamental maths, probability, statistics, linear algebra, formal logic, and discrete mathematics, the program enhances theoretical understanding and practical problem-solving skills. Graduates gain proficiency in mathematical reasoning and computational techniques critical for designing algorithms and analysing data in modern technical fields.
